Backlander Bed - Engineered for the Harshest Environments

In demanding situations, restful sleep is critical for peak performance.

The Backlander Bed offers a rugged, reliable solution designed to deliver superior comfort and support, ensuring personnel can recharge even in the toughest conditions.

With a robust steel frame and an impressive weight capacity of 1,000 lbs (454 kg) per cot, the Backlander Bed is built to withstand the rigors of military operations. Its tool-free assembly allows for rapid setup in the field, while the modular design enhances durability and longevity.

Efficient and space-conscious, the Backlander bed packs flat for optimal shipping and storage, allowing for more units per container and streamlined logistics. Its innovative design not only maximizes sleeping space but also ensures easy warehousing and transport.

- No tools required for quick deployment
- Collapsible design packs flat for easy transport and storage
- Compact and durable, engineered to handle the most extreme conditions.
- Supportive sleep surface for enhanced comfort and performance

The Backlander Bed: A sleep solution built for those who face the toughest challenges.
